## FOREWORD

This standard was adopted by the Bureau of Indian Standards, after the draft finalized by the Footwear Sectional Committee had been approved by the Chemical Division Council.

Marking on boots and shoes with its size and designation is of utmost importance to the user as well as to the persons handling with it. In line with the international practice being followed world over this standard has been formulated. This standard is in line with ISO 3844 : 1977 'Shoe sizes — Method of marking' published by the International Organization for Standardization ( ISO ), Geneva.

Composition of the committee responsible for the formulation of this standard is given in Annex A.

For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test or analysis, shall be rounded off in accordance with IS 2 : 1960 'Rules for rounding off numerical values (*revised*)'. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

## SHOE SIZES — METHOD OF MARKING

### 1 SCOPE

This standard prescribes method of marking of shoes and boots with their sizes in Mondopoint system based on length grading only.

It applies to all types of boots and shoes without any restriction.

### 2 REFERENCE

IS 8751 (Part 1) : 1978 'Footwear sizes in Mondopoint system : Part 1 Fundamental characteristics' is a necessary adjunct to this standard.

### 3 TERMINOLOGY

For the purpose of this standard the definitions given in IS 8751 (Part 1) : 1978 shall apply.

### 4 METHOD OF MARKING

#### 4.1 Elements of Marking

The size marking include an indication of the length of the foot followed by an indication of the width, both dimensions being expressed in whole numbers in millimetres (without mention of the unit) and separated from one another by a dash or an oblique line.

The characters used shall be at least 3 mm in height and, in order to avoid confusion, shall be clearly separated from other possible information (for example by a closed continuous boundary line such as a rectangle or oval, etc).

Examples : 260/94

215—82

270/103

#### 4.2 Location of Marking

##### 4.2.1 On the Shoe

The size shall be marked on each of the shoes constituting a pair, on an appropriate part of the shoe where it is clearly visible and intelligible.

##### 4.2.2 On the Package

When shoes are contained in a box or other form of package, an indication of the size of the footwear shall also be given on the package.

#### 4.3 Form of Marking

The form of the marking and the means by which it is to be applied (by punch, stamp, adhesive label, etc) are left to the manufacturer, provided that the marking remains visible on the shoe and intelligible as long as necessary.

### **Standard Mark**

The use of the Standard Mark is governed by the provisions of the *Bureau of Indian Standards Act, 1986* and the Rules and Regulations made thereunder. The Standard Mark on products covered by an Indian Standard conveys the assurance that they have been produced to comply with the requirements of that standard under a well defined system of inspection, testing and quality control which is devised and supervised by BIS and operated by the producer. Standard marked products are also continuously checked by BIS for conformity to that standard as a further safeguard. Details of conditions under which a licence for the use of the Standard Mark may be granted to manufacturers or producers may be obtained from the Bureau of Indian Standards.

## Bureau of Indian Standards

BIS is a statutory institution established under the *Bureau of Indian Standards Act, 1986* to promote harmonious development of the activities of standardization, marking and quality certification of goods and attending to connected matters in the country.

### Copyright

BIS has the copyright of all its publications. No part of these publications may be reproduced in any form without the prior permission in writing of BIS. This does not preclude the free use, in the course of implementing the standard, of necessary details, such as symbols and sizes, type or grade designations. Enquiries relating to copyright be addressed to the Director ( Publications ), BIS.

### Review of Indian Standards

Amendments are issued to standards as the need arises on the basis of comments. Standards are also reviewed periodically; a standard along with amendments is reaffirmed when such review indicates that no changes are needed; if the review indicates that changes are needed, it is taken up for revision. Users of Indian Standards should ascertain that they are in possession of the latest amendments or edition by referring to the latest issue of 'BIS Handbook' and 'Standards Monthly Additions'. Comments on this Indian Standard may be sent to BIS giving the following reference:
