

How to install CA certificate in Android Device.

1. Open the link “<https://www.iitr.ac.in/support/faq/certificate.html>” and download the “**WSA proxy certificate**”.

2. Open the **settings** and search for **Encryption and credentials**.

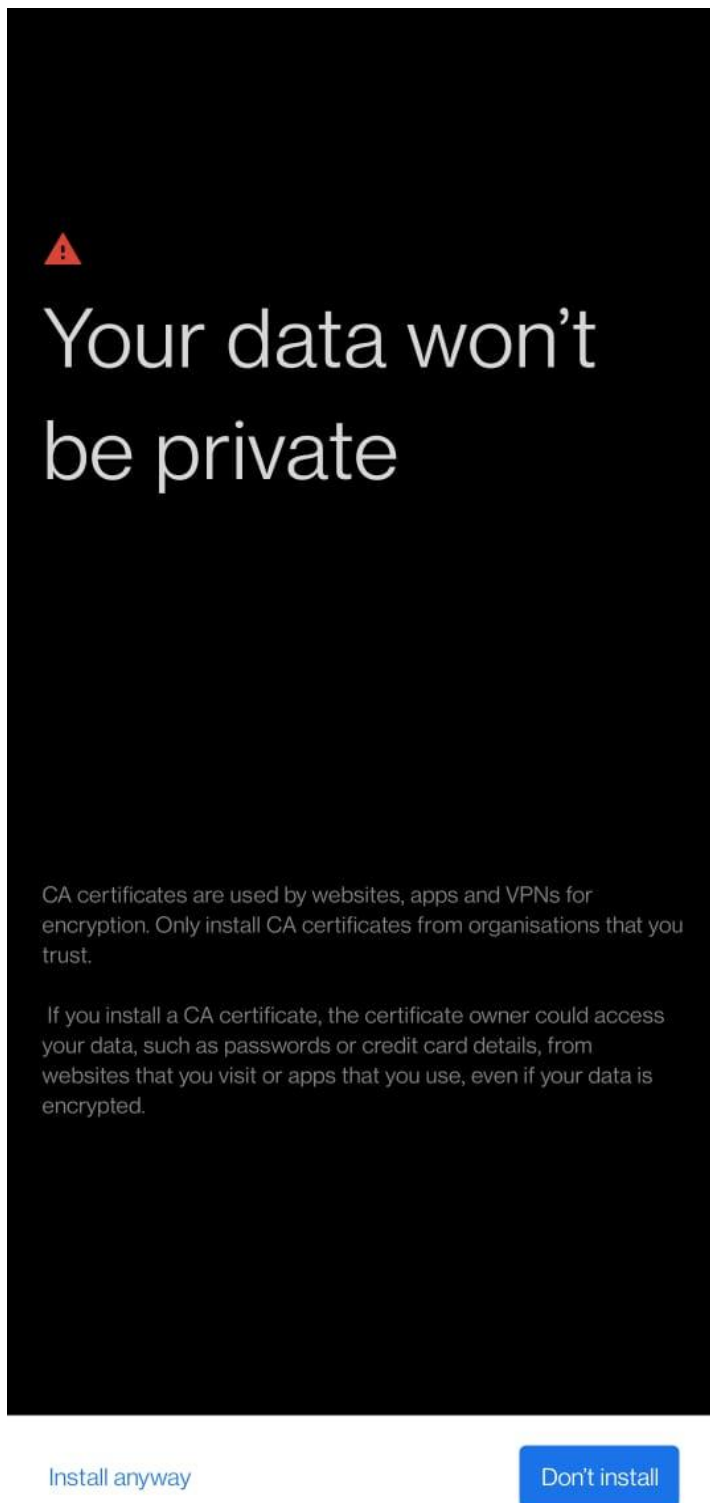

3. Click on **Install a certificate**.

4. Click **CA Certificate**.

5. Click on **Install Anyway**.

6. Select the certificate **IITRWSA_New.crt** and **install**.
